

Dear FCC,
I would like XM Radio to continue to provide high quality, commercial free local traffic and weather to me, a US taxpayer and XM subscriber. I have CHOSEN to subscribe to XM due to their commitment to me and not to the National Association of Broadcasters.

Please reject petition 04-160 and keep more options open to the US consumers. In a free society it is best to leave the choices to the people and not the corporations and their lobbyists.

Thank you for your time, and REJECT PETITION 04-160!!

Sincerely,

David DeVillers
